Subject: Onboard Pressure & Temperature Calibrators Inspection /Certification

Dear Sir/ Madam

As part of our company's continuous effort to serve and support the marine and offshore market, it is of our honor to inform you that **Alpha Marine Engineering** in collaboration with **Spectrum Labs** is able to provide onboard Pressure and temperature Calibrators accuracy inspection and Certification.

Our Service Engineers are trained and Certified by **Spectrum Labs** for the performance of the Pressure and Temperature Calibrators. Relevant portable equipment will be hand carried by our Service Engineers in order Calibration to be performed onboard, saving thus time and money from until today used practice of on shore Calibration.

Calibration process (Instruments, Training, Certification etc) is controlled under the Quality System of Spectrum Labs. **Spectrum Labs** are accredited by **E.SY.D** (Hellenic Accreditation System) under ISO 17025:2005 and Certified by **BVQI** (Bureau Veritas of France) under ISO 9001:2015.

We hope that the provided information will be of your interest and we remain at your disposal for any further information related to the offered Service of Pressure and Temperature Calibrators Inspection/Certification

Yours Faithfully

Dimitrios Plataras
Senior Service Engineer

Dinos Makris
Managing Director
