Subject: VGP Sample Collection, Field tests and Effluent Analysis

Dear Sir/ Madam

As part of our company's continuous effort to serve and support the marine and offshore market, it is of our honor to inform you that **Alpha Marine Engineering** in collaboration with **Spectrum Labs** can provide VGP Sample Collection, Field tests and Effluent Analysis.

Our Service Engineers are trained and Certified by **Spectrum Labs** for the performance of the Sample Collection, the required Field tests and safe/ secure Packing. Relevant portable equipment will be hand carried by our Service Engineers in order measurement of PH and TRO to be performed onboard.

The whole process (Sample Collection, Field tests, safe Packing and Sample dispatching to Spectrum Labs) is controlled under the Quality System of Spectrum Labs. **Spectrum Labs** are accredited by **E.SY.D** (Hellenic Accreditation System) under ISO 17025:2005 and Certified by **BVQI** (Bureau Veritas of France) under ISO 9001:2015.

The VGP Sample Collection, Field tests and Effluent Analysis can be provided to the bellow areas/ports :

- Greece , ports of Piraeus ,Elefsis , Agioi Theodoroi , Lavrio ,Kalamata ,Vatika
- Netherland , ports of Rotterdam ,Amsterdam
- Belgium port of Antwerp
- Singapore

We hope that the provided information will be of your interest and we remain at your disposal for any further information related to the offered Service of Pressure and Temperature Calibrators Inspection/Certification .

Yours Faithfully

Dimitrios Plataras  
Senior Service Engineer

Dinos Makris  
Managing Director
